When you serve RED ROSE ORANGE PEKOE to your family you are giving them the best tea you can buy.

The Conference Of Premiers

At the invitation of the Dominion Government there will assemble at OTTAWA early in November a conference of representatives of the Federal Government and of all the Provincial Governments at which consideration will be given to the many questions affecting the interests and rights of the Dominion and its several provinces. This conference will be attended by the Dominion Prime Minister and some of his colleagues and by all nine Provincial Premiers who in each case will be accompanied by cabinet colleagues.

The object of this round table conference is, of course, to discuss problems common to all and endeavor to find satisfactory solutions, to adjust any differences now existing, to try and harmonize conflicting laws, eliminate overlapping in administration, and, in general, to study the financial requirements of the several governmental units. In a word, it is co-operation for the good of all Canada. Its importance, therefore, does not call for any special emphasis.

This conference of Canadian Premiers is designed to accomplish for Canada something similar to what the recent Imperial Conference at London accomplished for the Empire as a whole. For example, the exact status of the Dominion and its several Provinces in regard to certain subjects requires to be clarified. There is now conflict of authority in matters of Company law, incorporation and regulation, including licensing of companies. In insurance matters, particularly there is more or less confusion.

Again, most of the Provinces are anxious to exercise strict supervision and control over the sale of stocks and bonds of companies, and several Provincial Legislatures enacted what are termed "blue sky" laws for the protection of the investing public, only to find that all companies had to go to escape Provincial jurisdiction was to become incorporated under Dominion law. The Provinces desire Federal action to overcome this difficulty.

Another matter which is common to all Provinces is the question of the duplication of police forces, with consequent friction; sometimes resulting in lack of co-operation. In any event, people feel there is an unnecessary waste of the taxpayers' money with Dominion, Provincial and Municipal police. The Premier's Conference will give consideration to such problems as these.

Then there is the ever-recurring question of the Dominion subsidies paid to the Provinces, and the complications resulting from the fact that some Provinces have control of their natural resources while others have not. As an outcome of the Duesen Report, the Maritime Provinces have been given a new financial arrangement temporarily. To this the other Provinces have not raised any objection, but if a new and permanent arrangement is to be made in the interests of these Provinces, then all the Provinces have a vital interest in the matter.

Furthermore, it is now fairly well recognized that the financial terms originally fixed at the time of Confederation, and as altered from time to time, work out to the advantage of the Dominion and unfairly to the Provinces. That is to say, increased population brings largely increased revenues to the Dominion through Customs, Excise, and other forms of taxation, but to the Provinces increased population means enormously increased expenditures for education, roads, hospitals, court houses, and institutions of various kinds. While the small increase in the subsidies received from Ottawa because of greater population is a mere bagatelle compared with such expenditures, re-adjustment of the financial terms, therefore, becomes a necessity from time to time.

No one thing is more apt to weaken Confederation than the existence of a feeling that it is not working out quite fairly to the Provinces, or that, in regard to those matters which are subject to both Dominion and Provincial jurisdiction, Federal Departments are not co-operating with the spirit of helpful co-operation which is essential to complete efficiency in Provincial administration. On the other hand, real unity in effort, frank recognition and understanding of each other's problems, and sympathetic consideration and action will make the Dominion united and strong.

The people of Canada will entertain high hopes that the Ottawa Conference will be as successful in its field as the Imperial Conference was in the larger arena of Empire affairs.

Aviation in Canada

No country provides a better field for air communication than Canada. The distances between the cities are great and the climate is favorable for flying. Experience shows that with suitable equipment, winter prevents no insuperable obstacle to the continuous operation of air routes.

Approximately 80 per cent. of the automobiles sold in the United States last year were bought on the deferred payment plan.

Good Country For Aviation

No country provides a better field for air communication than Canada. The distances between the cities are great and the climate is favorable for flying. Experience shows that with suitable equipment, winter prevents no insuperable obstacle to the continuous operation of air routes.

The youngest president of the United States was Theodore Roosevelt, who was inaugurated at the age of 42.

Penetrates Far North

University Graduate Prepares For Expedition Into Arctic Circle
Paddling 1,000 miles alone through the regions of Northwest Canada with only Indian, Hudson's Bay Company trappers, and herds of animals to punctuate the monotony. Cornelius Osgood, 19-year-old graduate student in anthropology at the University of Chicago, spent the summer steeping himself in the lore of the North woods and learning to live the life of the Indians, preparing himself for a 14-month expedition next year into the Arctic Circle to report on the culture of the little-known Athabaskan Indians. Osgood has just returned to the university to continue his studies in ethnology.

One Drop of "Putnam's"
—Corns Stop Aching

Isn't it wonderful—Just a drop or two of Putnam's on any corn and not only does it stop the pain, but a few applications the corn shrivels up and drops off. No more corns, no more pain from tight shoes anymore. You can dance and walk in comfort. Putnam's is the only corn cure that is guaranteed. Sold by druggists everywhere. Refuse to substitute for Putnam's—it's the best.

Will Bar Italians

Facist Oath Will Bar Aliens From U.S. Citizenship
Secretary of Labor Davis has reiterated his statement that acceptance of the Facist oath, as explained to the Senate, should bar all aliens from citizenship in the United States.

"If the Facist oath requires double allegiance, in my opinion the man of whom you take it will not make a good American citizen," the secretary declared.

The question of eligibility of a member of the Italian Facist to American citizenship came up in Baltimore, where J. R. Thomas, national chairman of Congress, reported on a pending action on 23 Italians, "blood oath" investigation of the so-called "blood oath."

BABY'S OWN TABLETS
ALWAYS IN THE HOME

Once a mother has used Baby's Own Tablets for her little ones she always keeps a supply on hand, for they are the only medicine that is so simple and so effective in keeping children well. The Tablets are a mild but thorough laxative which regulate the bowels and soothe the system, thus relieving constipation and indigestion, and the simple fever, making the mother's life easier. Concerning them, Mrs. Salute Pelletier, St. Dunas, N.B., writes: "I have used Baby's Own Tablets for the past ten years and an answer without them in the house. They have always given the greatest satisfaction and I can't recommend them to all mothers of little ones." The Tablets are sold by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

America's Oldest Shoemaker
The oldest shoemaker still at work in the United States is believed to be Daniel Singard, of Pompton Lakes, New Jersey, who has just celebrated his 84th birthday. Singard entered his father's shoe repair shop when he was 12 years old. He inherited the business, and it is calculated that he has handled 100,000 pairs of shoes.

Externally or Internally, It is Good
When applied externally by rubbing, Dr. Thomas' Eucalypti Oil opens the pores and penetrates the tissue, touching the seat of the trouble and immediately affording relief. Administered internally, it will still irritate the throat which induces coughing and will relieve affections of the bronchial tubes and respiratory organs. Try it and be convinced.

Antarctic Expedition

Expedition To Extreme Southern Seas Returns To England
After two years' of scientific research in the extreme southern seas, Captain Robert F. Scott's old Antarctic ship, Discovery, returned to Falmouth, England, having suffered no casualties in the struggles with the ice fields.

The expedition gathered valuable information, especially about the life habits of whale. Dr. Stanley Kemp, the leading scientist aboard, told newspapermen that on the disputed marital habit of whales, they are not monogamous. On the contrary, he declared, they have, so to speak, "a wife in every port."

The heaviest whale is the humpback, which runs from 75 to 85 pounds a cubic foot. Ebony is a close second, with from 60 to 80 pounds; hawwood is third, running from 50 to 75 pounds a cubic foot.

Find Prairies Prosperous

Canadian Chambers Of Commerce Party Enthusiastic Over Western Trip

What—Visiting—Hospitality—These are the three things which in the minds of the majority of the members of the Canadian Chambers of Commerce party stand out in bold relief as the great features of their tour of the Canadian west, which took them to all the larger prairie centers, to Vancouver and Victoria, and for a trip to Alaska and the Yukon.

"With \$100,000,000 in hard cash coming to the west for this wonderful harvest, and the farmers clear as much as 1 cent a bushel, the conditions are business generally, and of all classes and sections of the country, is bound to improve markedly," said C. H. Wright, vice-president of the Halifax Board of Trade. Another thing which impressed him as proof of general well-being on the prairies was the fact that the construction in residences which he marked all the way west from Port Arthur. He found the new symmetrical and hospitable and willing to give the maritimes every chance.

W. McLeod Clarke, secretary of the Montreal Chamber of Commerce, at the convention held at the coast Sept. 22-24 had been a great success in promoting better knowledge of conditions, and better understanding of problems, and that both domestic and foreign trade would be greatly stimulated through the fraternalizing which took place.

A. R. Debole, who spends most of his time in London, England, was impressed with the loyalty to the Empire, and the eagerness of the people, which he declared was more marked than anywhere else in the world.

A. J. Holloway, editor of the Hamilton Spectator, was most impressed with the spirit of the Montreal Chamber of Commerce, and vice-president of the Dominion body. The warmth of welcome was in itself an eye-opener.

They had never seen harvest operations on such a big scale before. A visit to the Turner Valley where natural gas gushes from the ground was another revelation, while the trip to Alaska supplied the touch of romance with its reminders of the gold rush and its totem poles and Eskimo relics.

The trip is itself was a tremendous factor for bringing east and west nearer, and the discussions at the convention had been clear cut and effective. Mr. Paulin felt that in the Dominion organization would be found the elements for cementing together the various parts of the country and welding its people into one vast broadminded and tolerant family.

Do not allow worms to sap the vitality of your children. If not attended to, worms may work irreparable harm to the constitution of the infant. The little sufferers cannot voice their complaint, but there are many signs by which mothers are enabled to detect their presence. Worm Powders are necessary. These powders act quickly and will expel worms from the system without any inconvenience to the child.

Lots of people seem to go to church for the purpose of picking flaws in the sermon.

Losses From Snot
Snot diseases cause heavy losses wherever cereal crops are grown. In Canada cereal estimates of snout losses are available only for the past few years, and these show the average annual loss to the Canadian farmer from this source as over \$12,000,000. Government departments, agricultural colleges, and technical agriculturists are all engaged in the effort to reduce this loss.

Lawyer—"Why did you kill this man?"
Prisoner—"The gun went off accidentally. I took him for some one else! It was self-defense! I was crazy! And besides, I didn't kill him!"

"Now that you are married I suppose you will take out an insurance policy." "Oh no! I don't think she's going to be dangerous!"

Charity leaves enough sins uncovered to prevent gossip from getting the lockjaw.

Minard's Liniment for Asthma.

Isolate Germ Of Infantile Paralysis

Task Of Science Is Simplified In Attempt To Cope With Disease
A special despatch to the Morning World from Boston, Mass., New York, says:

"The germ of infantile paralysis has been definitely classified, thereby simplifying the task of science in its attempt to overcome the disease," Dr. W. L. Aycock, head of the Harvard Infantile Paralysis Commission, said recently.

"The main problem now is to find a suitable animal to yield an anti-toxin."

"The only animal which takes the disease appears to be the monkey," said Dr. Aycock, "and the latter's mortality is so high that it is an unsatisfactory subject. When the proper animal for serum purposes is located, infantile paralysis will be controlled."

"Dr. Aycock pointed out that a somewhat similar problem confronted science when the diphtheria germ was first isolated and finally it was found diphtheria serum could be made from the blood of the calf."

"The infantile paralysis germ is too small to be detected even by the most powerful microscope," Dr. Aycock said. "It is a germ which has been proved by evidence of growth. He denied that an infantile paralysis epidemic existed. He pointed out that in Massachusetts there has been one-fourth the number of cases reported this year as compared to 1916."

"Paralysis need not be fatal," he said. "Fatalities from automobile accidents are far greater than the number caused by this disease. Many children who have had the disease will not have it again."

Umbrella Makers Benefit

Trade Is Boomed By Wet Weather In France
Amid all the complaining about poor business that has gone on in France this year, one class of men have been singularly prosperous. They are the umbrella makers.

Never, they say, has business been so booming in what is still academically known as summertime. This year, from a climatic standpoint, France had almost no summer at all. May was fine, but May is spring, and it had begun to rain.

Being unusually in demand, the umbrella went up in price. There was an unprofitable one cost five dollars or more.

By now, carrying themselves, the umbrella men kept their sense of humor—and gratitude. Their syndicate had printed and distributed 1,200 lithographs of General Delcambre, the French weather man.

Diarrhoea
Summer Complaint
HE ALWAYS USES

Mr. T. F. McGinn, McLennox, Ala., writes:—"Over forty years ago my mother used to give us Dr. Fowler's Extract of Wild Strawberry for diarrhoea and summer complaint. All through the years since then when troubled with an excessive looseness of the bowels I have been accustomed to take a few doses of the same old, reliable remedy and it always seems to have the desired effect, no matter what the cause."

Don't Accept a Substitute
This valuable preparation has been on the market for the past 80 years; put gently by The T. M. M. Co., Limited, Toronto, Ont.

Was Britain's Oldest V.C.

Colonel Who Won Decoration At Siege Of Delhi Is Dead
Britain's oldest V.C. Colonel Sir Edward Talbot Thackeray, has died at his home in London. He was an Indian Mutiny veteran and a cousin of the novelist Thackeray. He won the Victoria Cross at the Siege of Delhi. The incident, being described in the "London Gazette" of April 29, 1842, as follows:

"Edward Talbot Thackeray, 2nd Lt., Bengal Engineers. For cool integrity and characteristic daring in extinguishing a fire in the 'Dohli' magazine enclosure on September 16, 1857, under a close and heavy musketry fire from the enemy, at the imminent risk of his life from the explosion of combustible stores in the shed in which he fired."

Leaving Tower Hill Staff
The leading tower of Pisa, alarmed about the stability of which have been raised periodically during the past twenty years, has been found to be safe from falling. A special commission appointed to report on the matter says that the inclination of the famous tower is increasing, but at a rate which need not for the present cause apprehension. The movement of the seventh corner has amounted to about a third of an inch in the last nine years.

Holloway's Corn Remedy Takes the corn out by the roots. Try it and prove it.

Man, With Asthma, almost goes for death to and his suffering. He sees ahead only years of endless coughing, with intervals of rest which are themselves fraught with never a moment of ease. He has tried everything and he will find that his asthma is a thing of the past.

The lifetime of a good watch, says a story, is 50 years. The balance and hair-spring vibrate 167,000,000 times a year, while an equal number of ticks come from the escapement.

Relieves Sore Throat—Minard's Liniment
"In making a pound of honey bees travel a distance equal to that of five and one-half times around the world," estimates W. A. Jenkins of Hockport, the largest dealer in honey.

Scientists say women are more apt than men. Not that when man has a three weeks' growth of beard.

In the North Huron, Ontario, election, the successful Conservative candidate did not make a single speech. Perhaps that's why he was elected.

The wallflower at a dance may be the only girl present who knows how to mix flour at home.

If each succeeding younger generation is more wicked than the last, what a lot of angels there must have been outside of heaven a few hundred years ago.

Paved roads mean longer life for the car, says a highway official. Who the duce wants to drive a last year model?

WHO PAYS FOR IRRIGATION SYSTEM
The next meeting of the Bassano Board of Trade should be an interesting session. The chief topic of discussion will probably be whether or not the board is responsible for the entire cost of building the town irrigation system.

When the board undertook to finance the irrigation project, there seems to have been some misunderstanding as to what extent the board was responsible. It was estimated the cost of building the system would be about \$5,000. The board has already paid \$2,500 toward the cost of the system. There yet remains a balance of something like \$1,500 to be paid for the actual cost of buildings being less than the \$5,000 estimate.

The Board of Trade decided at their last meeting to pay to the town the sum of \$150. This amount, added to the \$2,500 already paid, makes a total of \$2,650, which amount records show, the board is responsible for.

The Mail feels that the Board of Trade is responsible for the full cost of the irrigation scheme. That there is no record clearly defining this is unfortunate, and has been the cause of all the argument.

The thing to do now, and which will probably be done at the next meeting of the board, is to come to a clear understanding on this point, and arrange a definite plan of payment for the balance of the amount. An arrangement of this kind would meet with the approval of practically every member of the board.

SATURDAY NIGHT IN TOWN

Folks from bigger places
Sometimes want to know
If in a town like ours
Things aren't awfully slow;
And if that's their notion
We'd like to set 'em right.
By having them to see us
On some Saturday night.

Supper hardly over
When the fun commences;
Everybody rushes
Like they'd lost their senses.
Pa must shake real quick,
And mother's got the glass;
Sister flies around
Putting on high class.
Can't be bothered now,
Got to hurry down;
Lot's of things to see
Saturday night in town.

All along the street
Flivvers packed in tight;
People from the country
Stayin' late tonight.
Minglin' on the corners
Men a-squallin' views;
Voices everywhere;
Women passin' news.
Girls dressed in their best
Keep a-squallin' by;
Boys in groups a-squallin'
Tryin' to catch their eye.

Barber shop is crowded,
Can't get in the sign;
Ice cream parlors full
Clean up to the doors.
Round and round the streets
Foot a-squallin' down;
Lot's of fun to see,
Saturday night in town.

He had been dining too well,
and hailing a taxi, he crawled gingerly inside, after feebly giving the driver his destination.

It happened that the opposite door had been left unlocked by the previous fare, and stumbling against it the inebriated one fell outside again. He picked himself up with difficulty and approached the driver.
"That's pretty quick work," he said. "How much do I owe you?"

GOD PITY THEM
(by Hildegard Plummer)
God pity them who have no love
To live beside and touch and kiss,
Rather be lost and lonely under
Than candle with the flame snuff.
God pity them and stop their tears
Who had a love and buried it,
Rather be darkness and no morning
Than candle with the flame snuff.

God pity them who tarry after
Beside the gate where love went
through.
God pity them when love has failed
them.
And life has failed them too.

A negro was receiving bricks at the top of a ten-story building where some repair work was going on. Another negro on the ground was loading the bricks on the carrier.

The negro above accidentally dropped a brick, hitting the one on the ground squarely on the head. He was indignant, and yelled to the one above: "Be a bit more careful, up 'ther. That brick hit me an' made me bite mah tongue."

At a fancy dress carnival there was some confusion regarding the character one of the guests represented. He was attired in a Roman toga with appropriate ceteras. "Pardon me," ventured an inquisitive person, "You're Titus Andronicus, aren't you?" "Wasn't," replied the Roman, indignantly. "Me? Why man, I haven't even discovered where the bar is yet."

When one has a soft job there's a strong temptation to lie down on it.

George Bray is busy thrashing on his own place near Crawford. He says a good sample and an average high yield is being turned out.

Mrs. George Goudie and son were in Bassano on Wednesday from "Husar." The little boy, off a horse last Saturday, and broke his arm.

E. J. Bell and E. Anderson were down from Husar Tuesday evening attending the meeting of Bassano Lodge A.F. & A.M.

Mrs. D. A. Fraser, who has been visiting her daughter, Mrs. Hartley, left Thursday to spend a few days in Glenelg.

Mr. and Mrs. Thew motored down from Husar on Monday. Their crop was hailed out, but they still expect to harvest a little.

Wm. McLane is the Bassano delegate elected to attend the Conservative convention in Winnipeg on Oct. 11th.

E. P. Parcell goes as delegate from Brooks.

Percy Powell is a busy thresher these days. He has finished thrashing on the Kellogg and Mott places, and is working back toward Latham and his own farm this week.

Mr. Snell passed through on Tuesday from Jenner. He says that thrashing is going very slowly out there. Lots of grain but very few machines.

A boarding house servant left to get married, and her sister, a big strapping girl of seventeen, fresh from the country, came as a "temporary" in her place.

"Do you think you will be able to attend to the gentlemen all right?" the landlady asked her.

"Oh, yes," she replied readily, "At home I helped mother to look after a hundred and forty-three cows and a hundred and seventy-one pigs."

"Saxpencil!" said Sandy to an Edinburgh chemist, who had charged him that for a packet of sulphur.

"Why, mon, I got it for fourpence in Glasgow."

"Aye," said the chemist, "an' for as I care you can sing awa' an' sa' the place where ye can get as much sulphur as ye want for naethin'."

He: "I've come to St. Louis to make an honest living."

Lee: "Well, there's not much competition."

URGE FIRE PROTECTION BY THRESHINGMEN

Attention of farmers and threshingmen, especially those operating steam engines, is now being called to the provisions of the Prairie Fire Act which effect them, by Hon. J. Lawton, Chief Fire Inspector for the Province of Alberta.

Mr. Lawton points out that in order to prevent the risk of serious conflagrations, no engine shall be placed within thirty feet of any building or stack and that a metal pan of adequate size filled with water shall be placed under the engine as a receptacle for kindlers and ashes.

All kindlers and ashes shall be thoroughly extinguished before the engine is removed from any place where it has been in operation and a barrel of water and two buckets shall be

placed conveniently in any stack of combustible material near the engine. A spark arrester in good repair shall be used and shall not be opened while the engine is in operation.

It is hoped that closer observance of these regulations will reduce the fire loss which occurs annually from this source.

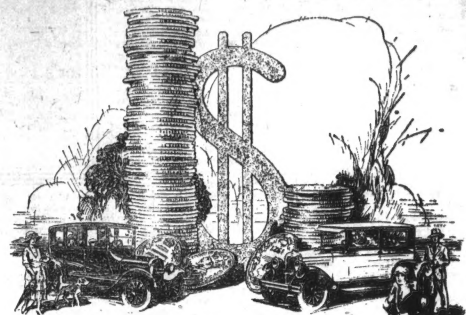

HIGH SUGAR BEET CROP ANTICIPATED

The largest crop of sugar beets in the history of the industry in Alberta is estimated this season from the southern part of the province where harvesting is now under way. The crop will, it is expected, total from 45,000 to 50,000 tons as compared with 41,000 tons last year. On account of the plentiful supply of rainfall during the growing season the crop has

grown satisfactorily with very little irrigation. The sugar factory at Raymond is expected to open for its full run about October 10.

POOL TO BUILD TWO MORE ELEVATORS

Contracts have been awarded by the Alberta Wheat Pool for the construction of two more elevators. It is announced from the head office of the Pool in Calgary. These will be 35,000 bushel houses located at Shusk and Blister on the newly completed two ship branch of the C. P. R. This will bring the total number of elevators owned by the Pool at country points in the province up to 187.

Making the Canadian Dollar Go Farther than Ever Before

IN the purchase of the common commodities of life, the Canadian dollar has decreased in value during the past decade.

But, in the purchase of an automobile, the dollar is now worth one hundred to two hundred per cent more than it was seven to ten years ago—is worth more, in fact, than ever before in history.

While constantly raising the quality standard of its products, General Motors of Canada has

increased the purchasing power of the Canadian car-buyer's dollar.

... by the economies of volume purchasing and production,

... by the close co-ordination of resources and facilities,

... by improved labor- and time-saving methods of manufacture,

... by sharing with Canada the savings effected by increased production.

In quality and in value, the Canadian dollar now goes farther than ever before in the purchase of a General Motors car.

Local News

W. A. Brodie, manager of the Bassano cemetery, was in Bassano last Sunday arranging for the moving of his business to Bassano next week.

The next regular meeting of Bassano U. P. A. Local will be held in the Oddfellows' Hall on Saturday, October 16th, at 8:30 p.m.

Wm. Kelly, of Calgary, Paramount Pictures manager, spent Wednesday with Mr. and Mrs. J. Torgan.

A daughter was born in the Bassano Hospital to Mr. and Mrs. Moser, of Bassano, on Sunday, Oct. 2nd.

A son was born to Mr. and Mrs. N. Noble, of Duchess, on Wednesday, Oct. 2nd, in the Bassano Hospital.

Miss Winifred Leonard is visiting with her parents in Bassano.

Mr. McParlane is the new teller in the Royal Bank, coming here from Beltsker.

Mr. Laurie, of Calgary, is a new member of the local Bank of Commerce staff, taking the place of J. Deporter.

Dr. A. G. Scott and Dr. D. E. Barlow have suggested twenty-seven graves so far this season.

Stanley Wight, son of Bert and Mrs. Robt. Wight, won the bronze medal donated by Viscount Willingdox to the pupil in the Bassano Inspectorate, winning the highest marks in three's departmental examinations.

H. Hudson, of Eckville, Alberta, is the new manager of the men's wear department of McKee's stores.

A merchant, complimenting his uneducated negro clerk, said: "Bambo, I don't understand how you can do all your work so quickly and so well."

"I'll tell you how it is, boss. I sticks de match ob enthusiasm to de fuse ob energy--an' jes' natcherally explodes."

FUNERAL OF MRS. CATHERINE TALKINGTON

The funeral of Mrs. Catherine Talkington, who died on Wednesday, September 28th, took place from Knox Presbyterian Church, Bassano, on Friday, September 30th, at 2 p.m.

A large number of friends gathered in the church to pay their last respects to the deceased. The funeral service was conducted by Rev. A. O. Thomson.

The casket was covered with many beautiful floral tributes from the following: The Family; Mr. and Mrs. Chas. Knox; Miss Myrtle Bullock and Miss Jean Wallace; Mr. and Mrs. Ben Plumer and children; Mr. and Mrs. J. B. Wallace and daughters; of Calgary; Mr. and Mrs. J. W. Bulmer; Mr. and Mrs. A. McKee; Mr. and Mrs. H. H. Jones; Mr. and Mrs. Hugh Haynes and Marlan; Mr. and Mrs. S. Leonard and family; Mr. and Mrs. E. P. Maurer; Mr. and Mrs. A. B. Maurer; Mr. and Mrs. Wm. McLau; the Women's Institute; Knox Church Ladies Aid; Dr. and Mrs. A. P. Dalziel; A. G. Bond and Richard; R. W. Scott; Mr. and Mrs. D. M. Hall; Mr. H. Grayson; Mr. and Mrs. T. Hunter; Mr. and Mrs. Harvey Smith; Mr. and Mrs. Loy, of Calgary; G. P. Warren and Mrs. Corbett; Mr. and Mrs. H. F. McDonald, Mary and Jim; Mrs. J. Allan; Mr. and Mrs. J. Simpson; Telephone Office Staff; Mrs. Broman and Thelma, of Calgary; Mr. and Mrs. B. E. Barlow.

At the conclusion of the service the funeral procession proceeded to the Bassano Cemetery, where the remains were deposited.
